Playdown Information:

- This season's playdowns are round-robin format with eight ends per game. A coin toss will determine hammer.
- Following each game, a draw to the button will take place. Measurements will be recorded and the total sum of the four draws will be used to break any ties to determine the rankings of Ottawa 1 and Ottawa 2. Each team member must deliver one draw to the button stone over the four game series. Results of the individual game measurements will be made available at the conclusion of the event.
- Should individual games be tied after eight ends, an additional end will be played to determine the game winner. Draws to the button will only be used to break any ties in the overall rankings. The ninth end is to be played towards the lounge.
- For Nationals, it has been determined that there will not be a moratorium in place on broom heads this year. This has been decided by all leagues and agreed to by the host city.
- A light meal and snacks along with cocktails will be offered at 6 PM on Saturday.
